

Strength

Made from Steel coated with highly Corrosion-resistant Zinc Alloy

Endurance

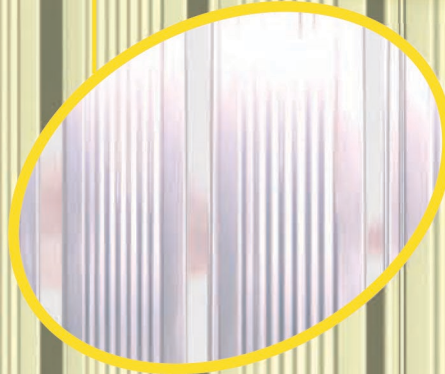

Finished with Double Oven-baked Epoxy Polyester Paints

Beauty

Available in Wood Finishes and Radiant Solid Colors!

An Achievement in Innovation

Base metal properties makes Cladstar highly resistant to all weathering conditions.

Special paint primers and finishing process makes Cladstar retain most of its properties throughout its service life, requiring very little or no maintenance.

Ideal for both interior and exterior applications

Your alternative for
facia, ceilings,
sidings, and
partitions, and
similar uses!

Installation:

For quality finished result of installation, ensure that the faces of all support/frame are in one plane. Spandrel can be used as ceiling (horizontal) and (vertical) including fascia. If end laps is necessary because of very long run, allow at least 25 mm lap.

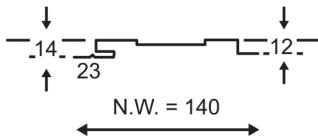

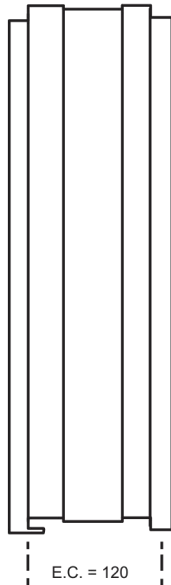

Location of Fasteners:

The fasteners should be located at the side lap.
